KLIMANORM

A beneficial combination of herbs, vitamins and selenium to tackle the problems of menopause (hot flashes, sweating, insomnia, etc.).

KLIMANORM

Periodic changes in hormone production affect the reproductive system of women by regulating their "monthly cycles." Menopause brings profound changes in hormone production and affects the balance of the woman's body, especially due to the reduction of hormone production, such as estrogen, progesterone, etc.

The result of these changes varies, from uncomfortable to painful symptoms, making everyday life difficult. Some of these conditions may persist beyond menopause and may lead to other consequences, such as increased risk of heart disease and osteoporosis.

KLIMANORM effectively relieves menopausal symptoms (anxiety, insomnia, irritability, hot flashes, sweating, mood fluctuations, and agony during sleep). It helps to relieve muscle pain, it contributes against cardiovascular disease and assists in delaying the onset of postmenopausal osteoporosis.

It is a safe, without side effects, herbal alternative when hormone replacement therapy (HRT) is not an option.

The basic components of **KLIMANORM** are:

- **Pfaffia Paniculata**
provides active phyto-estrogens that improve the body's hormonal balance.
- **Evening Primrose Oil**
promotes hormonal balance and affects hormone production.
- **Aloe Vera**
regulates the cycle and strengthens the immune system.
- **Siberian Ginseng**
has adaptogenic properties. It is soothing, relaxing and normalizes sleep.
- **Atriplex Halimus**
contains a high concentration of trace elements in natural organic forms.
- **Vitamins B₅, B₆, C, E & Selenium**
promote normal cell function, have antioxidant activity and increase the efficacy of the composition.

COMPOSITION

Pfaffia (Pfaffia Paniculata) 200 mg, Aloe Vera (200x Gel Powder) 3 mg, Evening Primrose Oil Powder 75 mg, Atriplex Halimus Extract (10:1) 2,5 mg, Vitamin B₅ (Calcium Pantothenate) 50 mg, Vitamin B₆ (Pyridoxine HCL) 1,6 mg, Vitamin C (Ascorbic Acid) 100 mg, Siberian Ginseng (Eleutherococcus Senticosus) 20 mg, Selenium (Methionine) 50 µg, Vitamin E (D-Alpha Tocopherol Succinate) 40,6 mg (Providing 40,6 mg of actual Tocopherol).
